

<u>Priority</u>	<u>User Story</u>	<u>Role</u>
High	As an admin, I want to manage user accounts and roles so that each staff member has the right access level.	<b>Admin</b>
Medium	As an admin, I want department-wise reports so that I can monitor performance efficiently.	
High	As an admin, I want to restrict certain functions for specific roles (e.g., only admins can delete records) so that data integrity is protected.	
Medium	As an admin, I want to see an audit log of user actions so that I can track system changes.	
Low	As an admin, I want automatic alerts for system performance so that I can detect errors early.	
High	As a doctor, I want to quickly access and update patient medical records so that I can provide timely treatment.	<b>Doctor</b>
Medium	As a doctor, I want to use prescription templates or voice notes so that I can save time when prescribing medication.	
High	As a doctor, I want to receive notifications when lab results are ready so that I can act promptly.	
Medium	As a doctor, I want to digitally collaborate with nurses and pharmacists so that I can reduce communication errors.	
Low	As a doctor, I want to filter patients by diagnosis or admission date so that I can easily track cases.	
High	As a nurse, I want to record patient vitals directly into the system using a mobile device so that I can save time and reduce paperwork.	<b>Nurse</b>

High	As a nurse, I want automatic alerts for medication schedules so that I can ensure correct dosing times.	
Medium	As a nurse, I want to receive notifications when doctors update treatment plans so that I can act accordingly.	
High	As a nurse, I want to access key patient info (vitals, medications, allergies) quickly so that I can respond faster during shifts.	
High	As a pharmacist, I want to receive electronic prescriptions from doctors so that I can process them efficiently.	<b>Pharmacist</b>
High	As a pharmacist, I want low-stock and expiry alerts so that I can manage inventory effectively.	
Medium	As a pharmacist, I want a system for approved medicine substitutions so that I can handle unavailable drugs safely.	
Low	As a pharmacist, I want monthly reports of dispensed and expired medicines so that I can monitor stock usage.	
High	As a lab technician, I want to receive test requests automatically from doctors so that I can manage workload efficiently.	<b>Lab Technician</b>
Medium	As a lab technician, I want to upload test results directly from lab devices so that I can minimize human error.	
High	As a lab technician, I want to verify test results before doctors can view them so that I ensure accuracy.	
Medium	As a lab technician, I want the system to detect duplicate test orders so that I can avoid redundant work.	
High	As a receptionist, I want to register new patients and generate unique IDs automatically so that I can speed up registration.	<b>Receptionist</b>

Medium	As a receptionist, I want to update bed availability in real time so that I can prevent double-booking.	
High	As a receptionist, I want to send SMS/email reminders for appointments so that patients don't miss their visits.	
Low	As a receptionist, I want a color-coded schedule for appointments so that I can manage slots efficiently.	
High	As a patient, I want to view my prescriptions, test results, and reports online so that I can track my health easily.	
High	As a patient, I want appointment reminders via SMS so that I don't miss my visits.	
Medium	As a patient, I want my medical results displayed in simple language and graphs so that I can understand them better.	Patient
Medium	As a patient, I want detailed bills showing insurance coverage so that I know exactly what I paid for.	
High	As a patient, I want to feel confident that my data is private and secure so that I trust the system.	
High	As an accountant, I want the system to generate automated invoices so that I can save time and reduce errors.	
Medium	As an accountant, I want to integrate with insurance APIs so that I can process claims faster.	Accountant
Medium	As an accountant, I want to generate monthly and yearly financial reports so that I can analyze hospital performance.	
Low	As an accountant, I want automatic alerts for unpaid bills so that I can follow up efficiently.
